A HISTORY OF INDIAN MADE QUALITY, EXPERTISE AND VALUE

For many years, **KDM** Roller Bearings have been performing under pressure. We specialize in heavy industrial applications in tough environments, like those found in the cement industry, bringing together a team of engineers with advanced technology to ensure that our bearings are designed to perform and built to last. Our goal is to deliver competitively priced, high-quality products delivered on-time.

- **PARTNERING**

with distributors and end users to create solutions to ever changing conditions and demands.

- **DESIGNING**

and supporting these solutions with **TECHNOLOGY** at every level;
Analysis, Design, Validation and Manufacturing

- **SOLUTIONS**

that include industry standard and customized;
Ball Bearings, Cylindrical, Spherical and Tapered Roller Bearings.

- **CUSTOMIZED**

when required; custom roller profiles and surface finishes.

- **REPAIR AND RECONDITIONING SERVICES**

that can save users as much as 60% the cost of new. Our expert team will inspect used bearings and advise a repair plan that includes a **LIKE NEW WARRANTY**. Savings that makes sense.

PRODUCTS AND SERVICES YOU CAN TRUST, FROM A COMPANY YOU CAN COUNT ON...

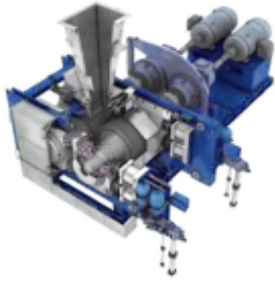

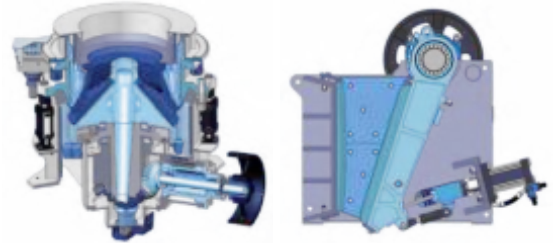

BEARINGS FOR CEMENT MILL APPLICATIONS

For day-to-day quarry and plant operations, **KDM** Roller Bearings are designed for reliability. Our improved geometry and surface finishes provide.

- Improved load distribution
- Smoother performance
- Reduced rolling stresses
- Longer service life

CRUSHERS

- Cylindrical Roller Bearings
- Spherical Roller Bearings
- Tapered Roller Bearings
- Thrust Bearings

ROLLING MILLS

- Cylindrical Roller Bearings
- Tapered Roller Bearings

ROLLER PRESSES & PULVERIZERS

- Cylindrical Roller Bearings
- Spherical Roller Bearings
- Tapered Roller Bearings
- Ball Thrust Bearings

SCREENING EQUIPMENT

- Cylindrical Roller Bearings
- Spherical Roller Bearings

KILN TRUNNIONS

- Spherical Roller Bearings
- Tapered Roller Bearings

GOOD FOR YOU. GOOD FOR THE ENVIRONMENT.

Certificate-CE ISO Certificate

Choosing **KDM** Roller Bearing for your repair and reconditioning services ensures that your investment in bearings will deliver continuing value to your operations for years to come, while saving time, money and materials. Repairing rather than replacing roller bearings is environmentally friendly as well. It is even possible to recondition bearings more than once, further extending their useful life.

We invite you to ask your local distributor to call in the experts from **KDM** Roller Bearing, for advice on bearings old and new, to help keep your operations on a roll.

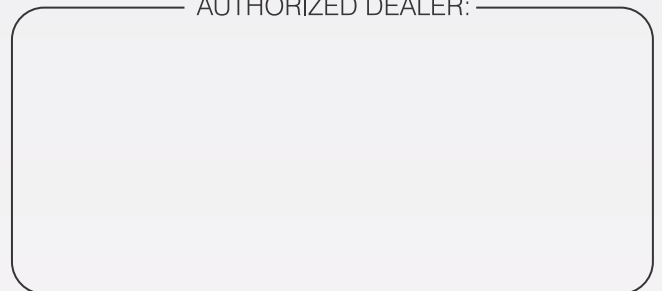

Types of Bearings

- Spherical Roller Bearings
- Cylindrical Roller Bearings
- Ball Bearings
- All types of standard and custom design

*Smaller bearings can be reconditioned when grouped in more economical quantities.
